Climate Resilience and Natural Resource Management Project

APPLICATION FOR SHORT COURSE TRAINING ON RESPONSIBLE RESOURCES USE

18-22 MARCH 2024

BACKGROUND

The College of African Wildlife Management, Mweka (Tanzania), in partnership with the Southern Africa Wildlife College (SAWC) and The Regional Post-Graduate Training School on Integrated Management of Tropical Forests and Lands (ERAIFT-DRC) is implementing a project on '**Climate Resilience and Natural Resource Management**' funded by GIZ. The Project aims to introduce the concepts of responsible resource use, domesticate and upscale it widely. As part of implementation of the project, this course intends to provide basic theoretical and practical concepts on responsible resource so as to equip participants with resource use aspects at their workplaces.

COURSE DESCRIPTION

- i) To introduce the concepts and principles of Responsible Resource Use,
- ii) To stimulate critical thinking on Responsible Resource Use,
- iii) To encourage sustainable resource use from social, ecological, and economic perspectives,
- iv) To stimulate action-oriented home-grown Responsible Resource Use.

WHO SHOULD APPLY

Individuals working in Public or Private Institutions in Tourism, Conservation or Environmental fields. Women are highly encouraged to apply.

REQUIREMENTS

Detailed CV of the applicant and Letter of motivation outlining the reasons for enrolling in the course

MODE OF COURSE DELIVERY

Lectures and field excursions

NUMBER OF PARTICIPANTS

A total number of 10 participants will be admitted.
